

FINAL PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) has received a subgrant application from the city of Russellville for the repairs to the Town Creek Retaining Wall. Pursuant to Executive Order 11988 and 44 CFR Part 9.12, final notice is hereby given of FEMA's intent to provide funding for this project under the Public Assistance (PA) Program.

An initial disaster-wide Public Notice was published July 23, 2024, for DR-4804-KY Severe Storms, Straight-Line Winds, Tornadoes, Landslides, and Mudslides. Comments and other information received were fully evaluated by FEMA along with evaluation of social, economic, environmental, and safety considerations. This notice serves as a project-specific final notice for FEMA's funding action located within a Special Flood Hazard Area. FEMA has determined that the only practicable alternative is to fund the repairs of the Town Creek Branch-Retaining Wall, already located within a Floodplain Area prior to the event.

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state, and local laws, regulations, floodplain standards, permit requirements and conditions. This action complies with the National Flood Insurance Program (NFIP) requirements.

Responsible Entity: FEMA Public Assistance Program

Applicant: Russellville, Logan County

Project Title(s): PW 00195; PN 757928 Russellville, Town Creek Branch-Retaining Wall

Location of Proposed Work and Floodplain Insurance Rate Map (FIRM) Panels:

Facility Name	GPS Coordinates	FIRM Panel
Logan County- Town Creek Branch-Retaining Wall	36.84696, -86.88192	21141C0257D Zone AE

FIRM Panel effective 10/2/2012. Site is located outside regulated wetlands.

Proposed Work and Purpose: The applicant will utilize contract and (or) force account for exterior repairs to Town Creek Branch Retaining Wall to restore this facility to its pre-disaster design, function, and capacity within the existing footprint. Replacement (1) Replacing 2.22 CY of Concrete retaining wall, 12 FT long x 10 IN wide x 6 FT deep. Replacement of 10.67 CY of Embankment Unclassified fill, 12 FT long x 8 FT wide x 6 FT deep.

Project Alternatives:

- (1) *No action alternative* – Alternatives are not feasible as the repairs are necessary to ensure that the retaining wall remains operational in its current historic location to perform its designed function.

Comments: This will serve as the final public notice regarding the above-described action funded by the FEMA PA program. Interested persons may submit comments, questions, or request a map of this specific project by writing to the Federal Emergency Management Agency, Region 4, 3003 Chamblee-Tucker Road, Atlanta, Georgia 30341, or by emailing FEMA-R4EHP@fema.dhs.gov. Comments should be sent in writing with the subject line "PW 00195; PN 757928: "Town Creek Branch-Retaining Wall" at the above addresses within 15 days of the date of this notice.

THIS NOTICE MAY BE REMOVED FROM PUBLIC VIEW ON THE 15th DAY FROM ORIGINAL DATE OF POSTING

NOTICE WAS POSTED ON 12th DAY OF November 2024
